

SF Bk 1 English letter 180 transcribed

Nov 20th (18)95

Mr. H. C. Webb, Croydon

Dear Sir,

Yours of yesterday to hand. The Lifter arrangement we have already settled.

As regards the new extinguisher I have nothing to add to what I have told you already.

I made you an honourable and straightforward proposal & since you reject same I have no alternative but to call your attention to your agreement with us dated 6th September 1893, by the terms of which we have the right to claim any new discovery which you may make in Central Air Draught Extinguishers. Since you are so obstinate I shall have to enforce the stipulations of this agreement & I hereby make application to you to assist us in taking out the *[necessary ??? contents]*.

It rests with you to either agree to my terms, or to make me enforce our rights.
Just as you like.

Yours truly

Falk, Stadelmann & Co., Ltd.

S Falk Managing Director

If you like to call and see me I will give you once more 5 minutes, not longer, to give you a chance of settling this amicably. But remember after paying you £100 for a useless invention you have neither moral nor legal right to enforce terms on us which are distasteful to us. I offer you an honest & liberal agreement, which you reject, so you must blame yourself.
